

Pisco Perfect

The current recognized pisco master in Peru is Guillermo Ferreyros, who makes pure, foot-stomped super-premium pisco fashioned from a formula of Quebranta, Torontel and Italia grapes grown in the Ica region. This year, in partnership with entrepreneur Richard Gray, Ferreyros has brought his masterpiece to the United States market under the brand name **Pisco 100** (SRP \$45). It's a stunningly elegant and delicious product, unlike anything else out there called "pisco." With smooth, clean aromatics showing vanilla on the nose, this 84 proof spirit has silky texture with mellow, smooth exotic herbal notes.

Pure and long with elegance, refinement and rich, creamy floral flavors, it makes an ideal base for sophisticated, sensual cocktails. **93 points.**
